I. W. W. Whipped Till Blood Runs

TULSA, Okla., Nov. 10.—The whereabouts is unknown of seventeen Industrial Workers of the World who were seized from policemen, flogged, tarred and feathered in the "name of the outraged women and children of Belgium" by sixty black robed and hooded "Knights of Liberty." The I. W. W.'s were started westward with a warning "never to return to Tulsa."

Eleven of them were arrested in the recent raid on the headquarters of the organization and the other six testified at the trial. They were taken to a wild ravine and ordered to strip to the waist, and in the glare of automobile headlights were tied to trees and lashed until the blood ran, then covered with hot tar. The disguises prevented the police from recognizing the "knights."

(By Associated Press.)
SAN FRANCISCO, Cal., Nov. 10.—The president's mediation commission, headed by Secretary of Labor Wilson, here to negotiate a settlement of the threatened coast-wide telephone strike, and to probe the Mooney case, went to Sacramento today to confer with the governor.

COLD AND MUD MET BY YANKS

DESPITE RAIN ARTILLERY ACTIVITY OF AMERICANS CONTINUES.

(By Associated Press.)
WITH THE AMERICAN ARMY IN FRANCE, Nov. 10.—There has been no special activity reported on the sector held by the American troops in France during the last two days. A continuous rain has interfered with artillery observations, but the Americans have been firing their usual number of shells daily. There is good reason to believe that some of these fell upon or near certain German battery positions and strategic points.

On the average, 500 German shells daily have been coming over, but no damage from them has been reported.

The infantry still is struggling with mud and water, despite the activity of the engineers in clearing the trenches.

The new hat adopted by the Americans is affording great comfort to the men. Both the infantry and artillery branches are wearing them under their shrapnel helmets, with the flaps over their ears.

The temperature here is continually going lower.

TELL OF TREATMENT OF LABOR IN BRITAIN

(By Associated Press.)
NEW YORK, Nov. 10.—Members of the special mission to the United States from the British ministry of munitions at a conference here with manufacturers in the oil, leather and rubber trades told how Great Britain has treated the labor problem since the outbreak of the war. The conference is the first of a series in this city with employers and employees in all lines of industry.

Sir Stephenson Kent, head of the mission, admitted that Great Britain blundered at the beginning of the war in sending so many skilled workers to the front. Employers association and trade unions then agreed to the munitions act. The unions agreed to abandon all restrictive operations for the period of the war so that employers can make use of any kind of labor in any kind of employment.

SIX MONTHS BEFORE U. S. ARMY GOES

DEMAND FOR FOOD AND COAL SO GREAT THAT DRAFT MEN MAY BE DELAYED.

(By Associated Press.)
WASHINGTON, Nov. 10.—There is a possibility that the first increment of the national army will not start for France for six months. The allies' demands for food, coal and iron are so strong as to preclude the use of all available tonnage for their transportation instead of troops. Reports of the American mission now abroad and figures by Hoover of the amount of food available for export are expected to influence the decision.

AIRCRAFT OUTPUT TO BE DOUBLED

PLANES BEING MADE BY THE TENS OF THOUSANDS FOR EUROPEAN CAMPAIGN.

(By Associated Press.)
WASHINGTON, Nov. 10.—Aircraft production in American factories is developing at such a rate that it was said today the present program of 22,000 planes and 50,000 motors by July 1 can be doubled in the last six months of next year if the needs of the arm demand it.

Consideration is being given to the substitution of metal tubing for spruce wood in American airplane manufacture, although the change may be unnecessary because the spruce supply, which was interrupted by labor troubles in the Northwest, now is almost normal. The French are using an alloy tubing for their plane frames.

Russ Demand 3 Months' Armistice

PETROGRAD, Nov. 10.—"We plan to offer an immediate armistice of three months, during which elected representatives from all nations and not the diplomats, are to settle the question of peace," said Nikolai Lenin, the Maximalist leader, in a speech before the workmen's and soldiers' congress.

"We offer these terms," Mr. Lenin added, "but we are willing to consider any proposals for peace, no matter from which side. We offer a just peace, but will not accept unjust terms."

BIG SAVING IN WHEAT SUPPLIES

TWENTY PER CENT OF OUTPUT IS CONSERVED BY CO-OPERATION.

(By Associated Press.)
MINNEAPOLIS, Minn., Nov. 10.—Co-operation of millers, farmers, grain dealers and consumers has made it possible for the food administration grain corporation to effect a big saving of the country's wheat supply. Julius Barnes, president of the corporation, declared here.

Mr. Barnes said the decrease in flour consumption amounts to 20 per cent. He said that flour mills have increased their production 15 per cent above last year, which is in line with the corporation's policy of encouraging flour milling and exportation of flour rather than wheat. Flour exports will total approximately 35,000,000 barrels, as compared with a normal export of 15,000,000 barrels, he said.

GERMANS ENTER HELSINGFORS, ACCORDING TO AMSTERDAM DISPATCH.

There is general satisfaction that the present Russian leaders will refuse to continue the war. It is believed in Berlin that Germany will await developments and offer Russia a separate peace on easy terms should the followers of Nikolai Lenin retain power."

The black diamonds arrived this morning—three carloads of them. They came in box cars with padlocks on the doors and were carefully guarded against theft. They were attached to the train from the south, coming from Las Vegas. One car was apportioned to each of the three local dealers. It is understood that 1,000 pounds is the largest individual order that will be filled.
